- Rules of play: :**
- valid Futnet Rules of the Czech Futnet Association – two bounces, final set point is the tenth (10), in case of third set - it starts with score 5:5;
 - each triple must have uniform dress and be composed of previously presented players;
 - in case of withdrawal, the opponent wins the match 2:0 (10:0, 10:0)
- Playing system:** The basic groups consist of 4-5 participants. In groups each team meets all other teams for two sets (result is 2:0, 1:1 or 0:2). Criteria of final standings in groups:
1. more match points from all group matches,
 2. more match points from mutual matches (then higher difference in sets from mutual matches, higher difference in set points from mutual matches),
 3. higher difference in set points from all group matches,
 4. drawing lots
- Next part of the tournament (play off) uses the knock-out (two winning sets, in case of a third set it starts with score 5:5).
First triple in each group qualifies to quarter-final directly.
Second and third triple in basic group standings qualify further into “reduced top sixteen”. According to spider-like pattern they play one match, the winner goes to real quarter-final and plays against the first triple from basic group (again according to spider-like pattern).
The winners of quarter-final matches qualify to semi-final matches.
Semi-final losers compete for 3rd and 4th places. The final match is played by winners of semi-final matches.
